Interpon D2015 Ultriva™

ULTRA DURABLE POWDER COATINGS FOR LONG LIFE DECORATION AND PROTECTION

Interpon D2015

Gold Global Warranty

Based on a unique new generation of ultra durable polymers developed and manufactured in-house by Akzo Nobel, **Interpon D2015 Ultriva™** powder coatings offer ultra durability and peace of mind to the end user.

Interpon D2015 Ultriva™ is perfect for all residential and commercial prestigious buildings and high rise developments where long term optimum architectural, aesthetic, technical and economic performance is required.

A 15 Year Gold Global Warranty supports **Interpon D2015 Ultriva™** when applied to aluminium by an **Interpon D** Approved Applicator. This new generation of architectural products is based on technology that has been engineered to resist attack by the elements of weathering.

Recommended Uses

Interpon D2015 Ultriva™ is recommended for exterior use in high Ultra Violet, high humidity and coastal marine environments where ultra durable coating performance is required.

Typical end uses include aluminium curtain wall extrusions and panels, architectural window and door systems, balustrading, louvre systems and other fabricated architectural aluminium sections.

Interpon D2015 Ultriva™

ULTRA DURABLE POWDER COATINGS FOR LONG LIFE DECORATION AND PROTECTION

World's Largest Coatings Company

Akzo Nobel, the manufacturer and marketer of **Interpon** Powder Coatings is the world's largest supplier of paint and powder coatings. This position is achieved through an understanding of customer needs and the common goal of delighting customers with the supply of high quality products and value added services.

Interpon Powder Coatings is a preferred choice for some of Australasia's leading fabricators when it comes to protecting and decorating architectural aluminium. This includes aluminium joinery manufacturers, aluminium extruders, curtain wall fabricators and professional aluminium powder coaters.

Local and Global Performance Specifications

Interpon Powder Coatings recognises the importance of local and international performance specifications. **Interpon** offers a range of architectural powder coatings that are marketed under the **Interpon D** banner and are specifically formulated to meet and or exceed the criteria of these specifications.

Approved Applicator Network for Peace of Mind

Supporting the Warranty Program is the **Interpon D** Approved Applicator network, designed to ensure that the **Interpon** powder coating specified is applied in accordance with the specialised requirements of both **Interpon** Powder Coatings and relevant international standards. **Interpon** Powder Coatings undertakes an extensive evaluation process and only issues approval to applicators who demonstrate they meet the criteria of the **Interpon D** Approved Applicator System. This is to ensure the highest level of customer satisfaction possible.

Interpon D Global Performance Warranties

The architectural range of **Interpon** powder coatings has been classified by a distinctive 4-tier colour coding system to reflect the duration of the Warranty available. The **Interpon D** Global Warranty Program makes product selection extremely easy.

Product	Interpon D Global Warranty**	Film Integrity	Colour Integrity
Interpon D610	BRONZE	10 Year	7 Year
Interpon D2010	SILVER	10 Year	10 Year
Interpon D2015 Ultriva™	GOLD	15 Year	15 Year
Interpon D3000 Fluoromax®	PLATINUM	20 Year	20 Year

**Conditions apply to warranty. A sample copy of the warranty is available upon request.

Interpon MiniB™

Interpon MiniB™ is a new small batch and rapid delivery service exclusive to **Interpon** Powder Coatings. This service provides specially made products to an order size as small as 60 kgs in almost any colour and almost any finish from a selection of technologies. Most importantly **Interpon MiniB™** provides this service very quickly and very economically. **Interpon MiniB™** is ideal for projects where only a specially designed colour will satisfy the design and creative needs of the project.

Interpon – Your Partner in Success

Interpon Powder Coatings has a range of materials and resources to help you succeed with your project – from the selection of product, coordination of colour, meeting of project specifications, choosing a suitable applicator right through to ongoing care and maintenance advice. The Customer Care Team at **Interpon** Powder Coatings is ready and willing to assist with your next project.

**Conditions apply to warranty. A sample copy of the warranty is available on request. Due to the nature of the printing process some degree of colour and gloss level variation may occur. We recommend that production line prepared samples are used for final colour selection or approval. All products supplied and technical advice given are subject to the standard terms of sale of the Akzo Nobel supplying company.

Copyright© 2006 Akzo Nobel Pty Limited. Typical end uses for **Interpon** products are displayed in this publication using actual projects and representative images. **Interpon**® and **Fluoromax**® are registered trademarks of Akzo Nobel International BV. **Ultriva**™ and **MiniB**™ are trademarks of Akzo Nobel Pty Limited.

COLORBOND® and ** colour names are registered trademarks of BlueScope Steel Limited. Over time colour performance may vary between COLORBOND® steel and **Interpon** Powder Coatings products due to the different paint technologies used.
