

The Capral Mk7 Sliding Window

Easy to operate and timeless in design, Sliding Windows are an economical choice. Wide panels with no external projections means they are ideal for high traffic areas whilst providing good ventilation. Mk7 Sliding Windows are available in various sized frames and can seamlessly integrate with doors, awning and fixed windows. Insect screening is included as a standard requirement.

The Mk7 Sliding Window

The Mk7 sliding window combines the strength and substance of a 55mm aluminium frame system with slimline mullion and transom profiles for maximised glass areas. Standard or lockable sash hardware can be selected, as can vent locking options to lock the window in the open position if required.

High quality sash weather seals improve weather tightness and with the use of optional glazing adaptors, the Mk7 can be double glazed to offer an enhanced level of thermal comfort and performance.

Features and Benefits:

- Neat, clean appearance
- Single and double glazing options
- Lockable hardware options
- Integrated insect and security screening options
- Colonial Bar available
