

The Genesis Range Double Hung Window

CAPRAL
ALUMINIUM

genesis

Double hung windows are clean in appearance and suitable for heritage or modern construction. As both top and bottom sashes are operational, this design lends itself to excellent ventilation while also having the ability to use performance glass making it a good all round thermally efficient window. They are available in a number of frame sizes. Keyed locks are an available option as are easy to fit and remove insect or security screens.

The Genesis Double Hung Window

The Genesis range of windows and doors has been designed to deliver a premium level of quality, performance and style in architectural aluminium design.

Like the Genesis awning and folding windows, the Genesis Double Hung Window features a gently curved sash profile. High quality sash balance hardware allow sashes to be removed and cleaned from inside whilst delivering smooth sash operation.

Optional double glazing is also available for improved thermal performance. Use of high quality seals and hardware also ensures the Genesis Double Hung Window delivers a high level of weather sealing.

Being part of the Genesis family, a full range of matching sliding, folding awning and casement, sliding, hinged and folding doors are available to further complement your design.
