

The Urban Plus Range Awning/Casement Window

CAPRAL
ALUMINIUM

urbanplus

Awning/Casement windows have the option to look either retro or modern due to their ability to have a splayed or a square looking sash. Awning windows are high performing, from both a thermal and acoustic perspective, due to a true full perimeter seal around the sash. They can be single or double glazed and available with keyed lock options.

The Urban Plus Awning/Casement Window

The Urban Plus Awning/Casement Window features a substantial 125mm framing system to provide the strength and performance required in high-end architectural applications. The inherent strength of this system allows for large semi-commercial configurations whilst delivering a residential aesthetic, not possible with commercial systems.

The Urban Plus Awning/Casement Window system features smooth flat sash profiles with an integrated bead line and rounded nose to achieve a modern yet classic appearance. This same feature is carried through the Urban Plus Hinged Door systems to deliver a unified aesthetic throughout the range. Capable of accommodating large high performance double glazing and able to achieve single sashes of up to 2400mm in height. The Urban Plus Awning/Casement represents a class of its own in respect to style and performance.

Features and Benefits:

- Premium quality 125mm architectural framing system
- Large capacity single and double glazing options
- Capable of sash heights up to 2400mm
- Compatible with the full range of Urban Plus window suites
- Custom designed hardware options
- Integrated insect and security screening options.

Finishes Available:

-  Powder coated range
-  Anodised Aluminium
-  Woodgrain
