

PRODUCT BULLETIN No. 197
419 250 Structural Glazed Split Mullions
Commercial

New structural mullions have been cut that suite the 419 250mm Flushline suite.

Note that when you undertake structural glazing with these sections we advise you to discuss your particular project requirements with your sealant supplier to get their recommendation for sealant type, glazing procedures and warranty. An indicative example of fitment is shown in the Capral technical data manuals.

Section	Description	Length (m)	AP / metre	PP / metre
EP17100	419 250 STRUCT MULLION MALE	6.5	0.754	0.503
EP16960	419 250 STRUCT MULLION FEMALE	6.5	0.736	0.491

Technical Notes

- These new sections have been added into the 419 DG Framing Technical Data Manual.
- These new sections are scheduled to be added into our estimation software at the next database update.

Please contact your local Capral representative for further information.

Kind regards,

Brendon Orth
