

The Genesis Range Folding Door

CAPRAL
ALUMINIUM

genesis

Folding Doors open up the full potential of outside living by bringing the outside in. Panels can be stack out of the way to one or both sides making them an ideal solution for entertainment areas and maximising panoramic views. Smooth to operate the folding door can be manufactured in various configurations of up to 8 panels. The inclusion of quality seals and performance glass means they are suitable for areas with high wind and water requirements.

The Genesis Folding Door

The Genesis range of windows and doors has been designed to deliver a premium level of quality, performance and style in architectural aluminium design.

The Genesis Folding Door features high quality hinge and roller hardware with Capral's unique EMT™ (Effortless Motion Technology) guide system to ensure smooth and lightweight motion of door panels.

Optional double glazing is also available for improved thermal performance. Use of high quality seals and hardware also ensures the Genesis folding door delivers a high level of weather sealing.

Being part of the Genesis family, a full range of matching sliding, folding awning and casement, sliding and hinged doors are also available to further complement your design.
