

PRODUCT BULLETIN No. 224

Louvre jamb adaptor

Commercial

A new Louvre Jamb Adaptor extrusion has been designed and produced. This adaptor along with plant on weather strip EP7599 is able to be fitted to any commercial framing system to form a louvre window. The adaptor provides a snap fit for Breezway or Diamond galleries to be fitted.

Whilst these adaptors can and will be indicated with multiple framing systems, the one that will be shown predominately is the 419 Flushline 150mm SG Frame. The benefits of this frame are:

1. The gallery can be fully opened when positioned toward the inside
2. Flyscreens/security can be fitted into the standard glazing pocket positioned towards the outside
3. Fixed sidelights, lowlights and highlights can be easily maintained using the standard framing systems

EP17523
Louvre jamb adaptor

| Section | Description | Length (m) | AP / metre | PP / metre |
|---------|---------------------|------------|------------|------------|
| EP17523 | LOUVRE JAMB ADAPTOR | 6.5 | 0.100 | 0.100 |

This section is in stock at Bremer Park, QLD in Mill Finish only, and will be extended to other locations subject to demand.

Technical Notes

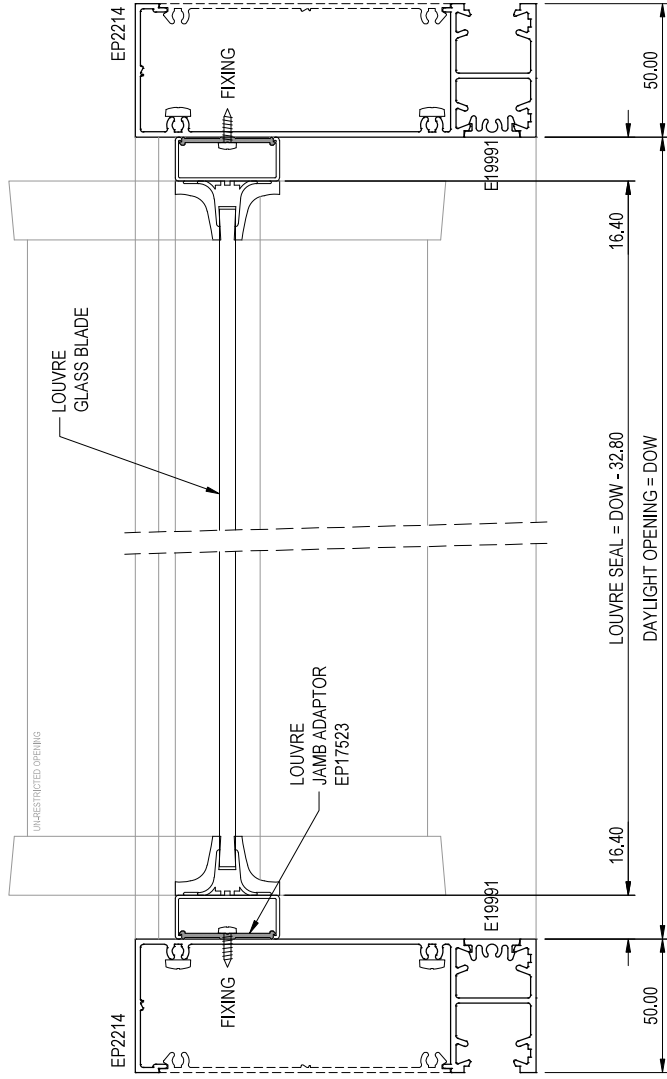

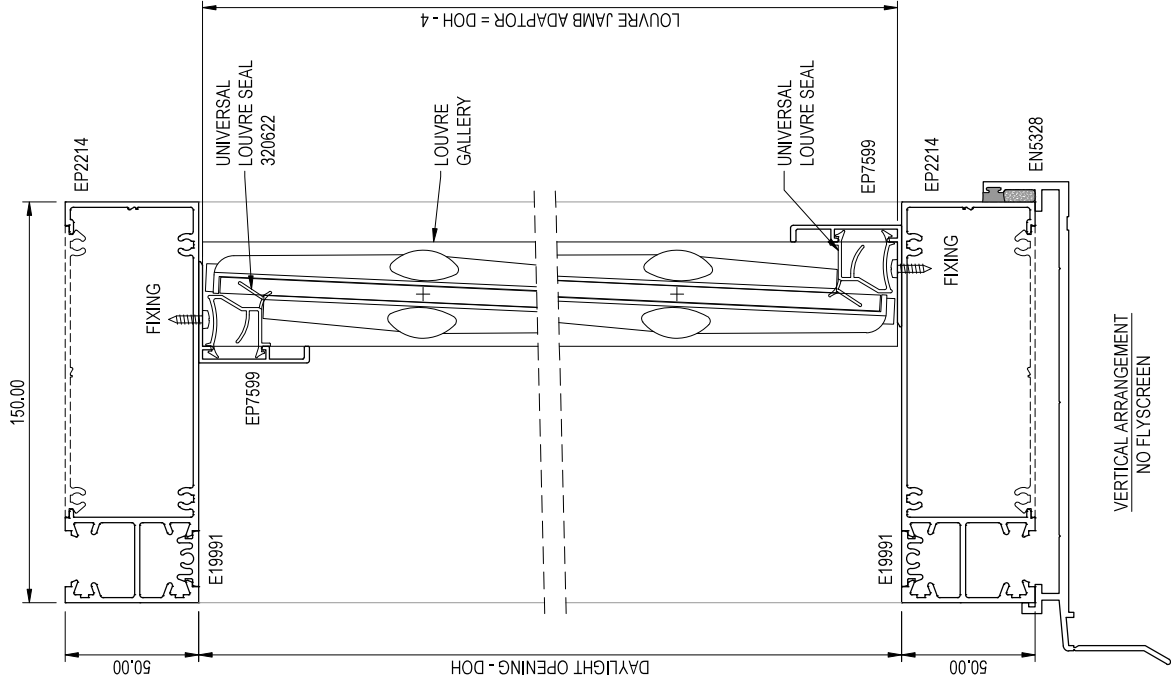

- Technical Manual has been updated and is available for download from the Capral website.
- These new sections will be available in the CRE8 database update number 58, and Logikal estimation software package.

Please contact your local Capral representative for further information.

Kind regards,

Brendon Orth
