

# The Urban Plus Range Double Hung Window

**CAPRAL**  
ALUMINIUM

**urbanplus**

Double hung windows are clean in appearance and suitable for heritage or modern construction. They are available in a number of frame sizes and can be configured into multiple units. Sound in both structural and water performance, they are suitable for all types of design. As both top and bottom sashes are operational this design lends itself to excellent ventilation. Plus the added ability to use performance glass, makes it a good all round thermally efficient window.

## The Urban Plus Double Hung Window

The Urban Plus Double Hung Window features a substantial 125mm framing system to provide the strength and performance required in high-end architectural applications. The inherent strength of this system allows for large semi-commercial configurations whilst still delivering a residential aesthetic, not possible with commercial systems.

The Urban Plus Double Hung Window features bold mitred sash profiles. Sashes feature high quality balances and a simple sash release system for easy cleaning. Full width integrated finger pulls and high quality latch hardware further enhance functionality. Capable of accommodating high performance double glazing and able to achieve single sashes of up to 1200mm in height, the Urban Plus Double Hung Window allows a high degree of design flexibility.

### Features and Benefits:
