<b>32mm IGU Support Bead (CW116, CW175)</b>
<b>Commercial</b>

With a growing requirement for thicker glass in curtain wall suites it is necessary that we add to our range a glass support bead capable of supporting 32mm thick glass units. A standard bead and corner bead have been cut that are suitable for both the CW116 suite and CW175.

The existing glass support beads EP12693 and EP13083 were designed to support glass units up to 28mm thick and will remain in stock and part of the offer.
