

PRODUCT BULLETIN No. 238
Urban & AGS Awning Reinforced Glazing Beads
Residential ~ AGS Commercial

Capral is implementing a design change to the Urban fixed light and awning glazing beads which are also used in the AGS 35 Series awning. These beads retain the same die numbers and will run into stock as the old beads are sold.

These beads are used in the

- Urban 581 Double Hung fixed lights
- Urban 582 Internally beaded Awning sash & fixed lights
- Urban 584 Sliding Door highlights, when using
 - EP12622
 - EA1702/EU7976 combination
 - EA1702/EP5230 combination
 - EP3178/EP5230 combination
- AGS 35 Series Awning Sash, both Overlay and Inserted sashes

Old Beads	New Beads
	
	
	

Die numbers have been transferred to the new shape, with the old shape no longer available and will be a running stock change with the new sections entering the market as old stocks diminish.

Technical Notes

Technical Manuals will be updated with the new bead design as they are updated with other changes.

The various software systems will also be updated with the new shape during an upcoming release.
