

<b>PRODUCT BULLETIN No. 239</b>
<b>AGS 419 - WEDGE UPDATE</b>
<b>AGS Commercial</b>

Capral is pleased to introduce a new 9.5mm gap co-extruded glazing wedge for the AGS 419 Flushline. This new co-extruded wedge replaces the old 7.5mm captive wedge (300010) and extends the range of glass thicknesses supported in the AGS 419 Flushline while also making glazing easier.

Old Wedge - 300010	New Wedge - 321919
<p><b>300010</b> CAPTIVE WEDGE 7.5mm GAP 50m ROLL - SC (M027131)</p> 	 <p>Description- CO EXT CAPTIVE WEDGE 9.5mm GAP SAP Number – 321919</p>

This new captive wedge extends the range of glass thicknesses which can be accommodated to include 5mm and 6mm Single Glazed and 22mm Double Glazed as well as providing a true co-extruded wedge for multiple other glazing thicknesses.

**For Single Glaze**

GLASS SIZE	WEDGE		WEDGE	
5mm	321919	9.5mm	300011	7.5mm
6mm	321919	9.5mm	300006	6.5mm

**For Double Glaze**

GLASS SIZE	WEGDE		WEDGE	
22mm	321919	9.5mm	300011	7.5mm

300010 stock has now been exited and the new material 321919 is available in stock and comes in a 100m roll.

**Technical Notes**

Technical Manuals will be updated with the new material in the next pending release.

The various software systems will also be updated with the new material during an upcoming release.
