

PRODUCT BULLETIN No. 244
Urban 10-10.38mm Glazing Channel
Commercial - Residential

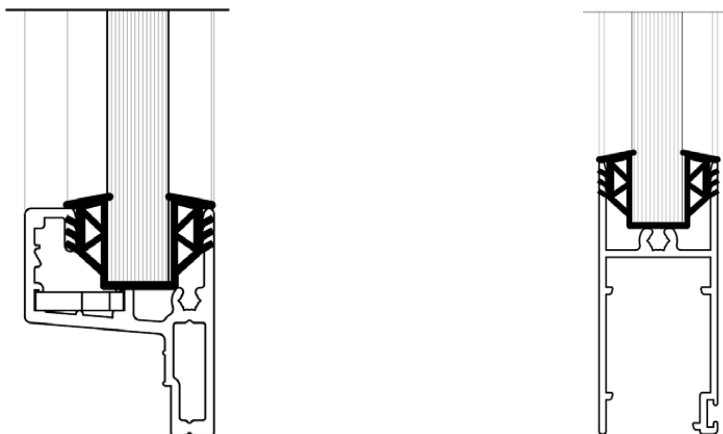

Capral is pleased to introduce the Urban Glazing Channel 10-10.38mm. - 323141
This channel work with the following suites

- Urban 580 Sliding Window*
- Urban 581 Double Hung*
- Urban 582 Awning
- Urban 584 Sliding/Stacking Door
- AGS 380 & 480 Sliding Windows*
- AGS 481 Double Hung Window*
- AGS 382/482 Awning Windows

* Used with EP16768 Urban Double-Glazed Adaptor

	<p>Material Number: 323141 Description: Urban Glazing Channel 10-10.38mm Glazing Channel Roll Size: 50m Current Stocking Location: Campbellfield Victoria</p>
--	---

The glazing channel is used in the DG pocket. As an example, the below indicates 10mm glass being used in both Urban 580 Sliding Window DG adaptor (EP16768) and the Urban 584 Sliding/Stacking door rail (EU9742).

Technical manuals will be updated to reflect the above drawing detail in the future updates
The Software programs will reflect this new material and glazing option in future updates
Any questions please contact your local Capral representative

Kind regards,

Matthew Finnie
