ELEGANCE WARDROBE SYSTEMS

The Elegance Wardrobe System is the essence of simplicity, functionality and versatility. Designed to look equally at home in a traditional or modern interior, it is characterised by sleek lines and refined finishes. This system has been engineered for the demands of daily family use. Featuring high-quality rollers for smooth operation, strong aluminium framing to make countless size panels possible and a specially designed tracking system for a multitude of door configuration options.

FEATURES AND BENEFITS

- Purpose designed guide/bumper component aligns the door panel within the head track and provides a door stop feature when positioned accordingly
- Head and sill end cap components designed to neatly finish of the installed system
- All exposed components are colour matched to various aluminium extrusion finishes
- Two to five panel door configurations achievable in double track
- Three and six panel door configurations in triple track
- Finger pull detail has been designed into the panel stile extrusion for door panels glazed with a solid or plasterboard panel
- Available in mirror, opaque glass or solid infill panelled doors
- Bumper strips fit into the panel stile providing a cushion for the panel upon closing
- Softclose system provides an anti-slam feature with an elegant, yet quiet feel, for superior functionality
- Frame joint assembly is achieved using specially designed rollers and components. Screw fixings are concealed on the inside of the wardrobe panel
- Specially designed midrail allows you to incorporate different panel types in one door
