Standard Handle

Ring Pull Handle

Dual Handle

Ventus Automatic Louvre Gallery:

AGS Commercial Louvre Adaptor

- The AGS Commercial Louvre Adaptor is an extremely simple system which consist of two extrusions.
- These extrusions can be fitted to any of our commercial framing systems, converting the configuration to a louvre window.
- When paired with the AGS 419 Flushline 150mm SG range, the result is very clean architectural style window which provides clearance to completely open the 152mm louvre blades behind the fully integrated Fly/Security screen.
- These adaptors are compatible with the full range of Ventus Louvre Galleries.
- For further information please visit the Capral website

<https://www.capral.com.au/wordpress/product/ags-commercial-louvre-adaptor/>

This will see the AGS 400 Narrowline Louvre Adaptors removed from Capral's offering, and only offered via mill runs.

- EP7896 – Sill Adaptor
- EP7897 – Head Adaptor
- EP7898 – Mullion Adaptor

Ventus Gallery Offer

Capral has partnered with Ventus and will be offering the full range of Ventus Galleries. This range includes automation, which works exclusively with Capral's Awning range. For further information on wiring and product offering please view the previously mentioned links.

Software

Both the Urban Plus 393 Louvre Window & AGS Commercial Louvre Adaptor will be available in the next LogiKal and Cre8 updates.

This product line is now in stock, though in selected locations

Technical Manuals have been updated and published for download from the Capral website and Capral Hub app
