Department Schüco

Product Schüco ASE 39.PD.NI.HD Panel Centering Bracket

As Schuco continues to grow in Australia Capral has added the following component to the ASE 39.PD.NI.HD Panoramic Sliding Door.

The door will now have a panel centering bracket that is an alternative to the existing adhesive Centering Strips “284878”. This bracket fitted onto the panel in the head is integral to the high performance the door offers

Material

322983

Schüco Article Number

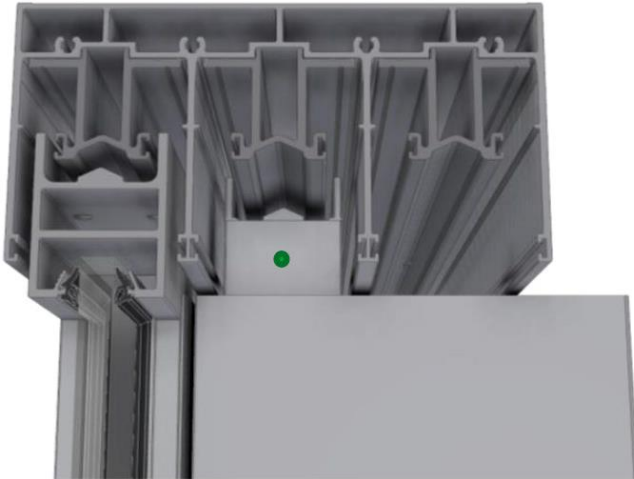

9644934

Description:

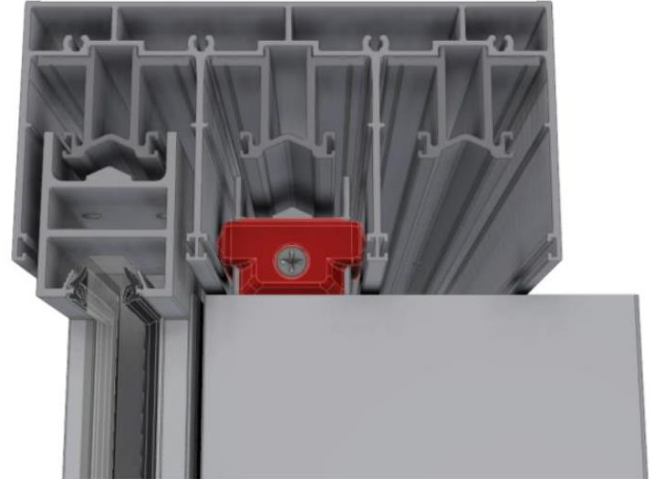

Schüco ASE 39.PD.NI.HD Panel Centering Bracket (x10)

The part is fitted to both ends at the top of the sliding door panel, with a single countersunk screw, after the panel is installed into the sliding track of the outer frame. Pre-drilling a pilot hole using the part as a template is suggested for easier assembly

Panel installed in head track. Drill pilot hole prior.

Fit component (shown RED) onto panel, snugly between head track walls.

This product line is now in stock in selected locations

Technical Notes

- Technical Manuals will be updated and published for download from the Capral website
- This new material is now available in the Logikal estimation package

Please contact your local Capral representative for further information.
