GLAZING ADAPTORS

CAPRAL  
ALUMINIUM

## AGS GLAZING ADAPTORS

Capral offers a wide range of adaptors that provide glazing options for existing and new structures. They may be used on a variety of sub-structures including steelwork, timber or aluminium.

Options include glazing channels for frameless glazing, internal partitioning, door and general adaptors and also the familiar St Lucia and St Kilda plant-on glazing systems. Some glazing adaptors may also be used as a secondary glazing option for increased acoustic performance.

Note that glazing adaptors have limited structural capabilities and rely on being fixed to a suitable structural member.

### FEATURES AND BENEFITS

- Extensive range of Glazing Adaptors provide a wide range of glazing options
- Low profile sections maximise daylight openings
- Options from 4mm single glazing through to 41mm double glazing
- Beaded options for both single and double glaze applications are available
- Glazing Adaptors can be fitted to a variety of structural surfaces

### MAXIMUM PERFORMANCE

St Kilda Plant-on Adaptor	6-36mm
St Lucia Plant-on Adaptor	4-28mm
Door Adaptor	4-29mm

### GENERAL ADAPTORS

31mm	6-12mm
35mm	4-26mm
50mm	4-41mm

### FLUSHLINE ADAPTORS

30mm	6-12mm
50mm	24-28mm

Capral's AGS range is extruded in Australia using LocAl® Green primary aluminium.

- 50% lower-carbon emissions than global averages for primary aluminium
- 8kg CO<sub>2</sub>e/kg Al
- ASI Certified Smelter
