

Capral Ltd Media Kit

Company Overview

Capral Aluminium is Australia's largest extruder and distributor of aluminium products, partnering with local manufacturers to deliver bespoke and innovative solutions across the residential and commercial construction markets, as well as diverse industrial sectors including transport, marine, defence, and renewable energy.

Fast Facts

- 65,000 tonnes/year extrusion capacity – Australia's largest aluminium specialist manufacturer
- 27% share of Australia's total aluminium extrusion market
- 42% share of all locally produced aluminium extrusion
- Largest supplier of industrial aluminium extrusions
- Largest distributor of rolled aluminium (sheet and plate)
- The second-largest distributor of commercial window framing systems
- 20,000+ extrusion profiles produced annually
- National footprint – 6 manufacturing plants, 20 distribution centres

Capabilities & Services

Capral offers an unmatched supply chain and technical advantage, including custom aluminium solutions across extrusion, machining, and finishing. Advanced in-house services include CNC routing, precision cutting, and powder coating. Capral also designs proprietary systems and offers extensive technical support.

- Applications include:
 - Window & door frames, facades, sun-shades
 - Boats, truck bodies, security doors, fencing
 - Solar mounting systems and clean energy infrastructure
- Market Breakdown:
 - Residential & commercial construction: 54%
 - Industrial markets (transport, defence, marine, energy): 46%
 - Window and door framing: 30–40% of total volume

Sustainability Leadership

Capral is Australia's only ASI (Aluminium Stewardship Initiative) certified aluminium extruder, with certification for both the Performance Standard V3 and Chain of Custody V2 – covering all 26 facilities.

LocAl® – Capral's Low Carbon Aluminium

- LocAl® Green: 8.0 kg CO₂e/kg Al
- LocAl® Super Green: 4.0 kg CO₂e/kg Al
-

Key Sustainability Actions

- Committed to net zero Scope 1 and 2 emissions by 2050
- 75% of billet sourced locally;
- 800kW solar system at Campbellfield (VIC)
- Recycling of all post-production scrap aluminium

Market Response & Innovation

Capral is proactive in adapting to changes in regulations, energy prices, and market needs.

Strategic Initiatives

- Investment in thermally broken framing systems to meet NCC updates
- Digital transformation including new e-commerce platform
- Enhanced employee benefits and flexible work policies
- Fair trade advocacy through government channels

Leadership Team

Tony Dragicevich – CEO & Managing Director

Tertius Campbell – Chief Financial Officer
